10 parcels screened with public-source evidence

BOTTOM LINE

BEST CURRENT NEXT STEP	FERNWOOD ST Campbellton 01-6N-12-0000-0250-0000 Opening bid \$1,487.29
-----------------------------------	---

This means investigate first, not bid. The lead parcel has the strongest combination of completed parcel geometry, first-pass economics and mapped usable-area screening in this inventory.

STOP BEFORE BIDDING

Verify title and surviving liens, legal access, zoning and permitted use, survey boundaries, septic/soil feasibility, utilities, site elevation, flood requirements and jurisdictional wetland status. Opening bid and assessed value are not total cost or market value.

This report is public-source screening, not legal, title, survey, zoning, environmental, insurance, appraisal or investment advice.

Decision Board

ADVANCE means spend the next due-diligence dollar. REVIEW means a material issue needs resolution. HOLD means the evidence is incomplete. KILL means the first-pass economics or completeness screen failed.

Inspection	Public-right-of-way visit and documented physical condition.	OPEN
Auction re-check	Reconfirm parcel, case, status, terms and opening bid immediately before auction.	OPEN

Evidence limits

FEMA mapping is not an elevation certificate. National Wetlands Inventory mapping is not a jurisdictional delineation. Road-centerline proximity is not legal access. Area outside two mapped layers is not automatically buildable. Assessed value is not market value.

DECISION: Investigate FERNWOOD STCampbellton first. Do not bid until every gate above is closed with documentary proof.
